

# Day 1 - February 27th

9:30 – 10:20 Coffee and Registration  
10:20 – 10:30 Opening remarks

---

## Session 1 - Chair: Volodymyr Zenin

10:30 – 11:15 Invited talk 1: **Sergey I. Bozhevolnyi** (SDU)  
*"Metasurface empowered single-photon sources"*

11:15 – 11:35 **Mads Vandborg** (DTU) *"Brillouin OTDR using multi-mode optical fibers"*

11:35 – 11:55 **Ahmed Fadil** (Force Technology) *"High-Brightness Light Sources for Retroreflectometer Applications"*

11:55 – 12:10 Company pitch session

---

## Lunch

12:10 – 13:30 Sandwiches at the exhibition

---

## Session 2 – Chair: Kasper Paasch

13:30 – 14:15 Invited talk 2: **Bjarke Jørgensen** (Newtec)  
*"The Development of Hyperspectral Cameras -Potato grading and all the light we cannot see"*

14:15 – 14:35 **Line Jelver** (SDU) *"Nonlinear Plasmonics in Nanostructured Phosphorene"*

---

## Break

14:35 – 15:00 Coffee and cake

15:00 – 16:00 Start-up panel Discussion by OPTICA

16:00 - 18:30 Poster session, networking & exhibition

18:30 – 21:00 Conference Dinner

21:00 End of day 1

# Day 2 - February 28th

8:30 – 9:15 Coffee and Registration

---

## Session 3 - Chair: Asger Jensen

- 9:15 – 10:00 Invited talk 3: **Michael Drewsen** (AU)  
*"Raman spectroscopy of single ions applying Optical Frequency Combs"*
- 10:00 – 10:15 **Yadong Deng** (SDU) *"Electrically Tunable MEMS Optical Metasurfaces"*
- 10:15 – 10:30 **Ali Nawaz Babar** (DTU) *"Fabrication and characterization of photonic cavities with atomic-scale confinement"*
- 

## Break

---

## Session 4 – Chair: Asger Jensen

- 11:00 – 11:15 **Laura N. Casses** (DTU) *"Full near-field characterization of exciton-plasmon polaritons in thin-layered WSe<sub>2</sub> on monocrystalline gold platelets"*
- 11:15 – 11:30 **Andrea Pertoldi** (NKT Photonics) *"Modular fibre laser platform for quantum applications »"*
- 11:30 – 11:45 **Sven Ebel** (SDU) *"Shaping free electron wavepackets with structured light"*
- 

## Lunch

11:45 – 13:00 Lunch served at the exhibition

---

## Session 5 - Chair: Volodymyr Zenin

- 13:00 – 13:45 Invited talk 4: **Deepak Nair** (NKT Photonics) *"Commercial supercontinuum lasers and their applications"*
- 13:45 – 14:00 **Masoud Payandeh** (DTU) *"Bidirectional Linear Widely Tuneable 1310 nm MEMS VCSEL"*
- 

14:00 – 14:15 Poster award session

14:15 – 14:30 Final remarks and goodbye

See you next year!
